Find the Wallet App on your device or go to the Google Play Store to download Samsung Pay.

Open it and you'll be in your Digital Wallet, ready to add your Canopy debit or credit card.

2.

Select your preferred Verification Method and tap next at the bottom right.

3.

On the Main Menu, touch + Credit/debit.

4.

continued...

Select Add credit/debit card.

5.

Add your card by aligning within frame, or manually entering information.

6.

Verify Terms and Conditions which read as, "Please contact the issuer of your Visa card with any questions or issues regarding the enrollment of your card in a Digital Wallet application."; select "Agree To All" at bottom right.

7.

Select your preferred method of verification. Choose SMS for a code to be texted to you, or call 844-646-5465 to verify. If you selected SMS, you will receive a Text Message with a one-time digital passcode, which needs to be input into the Verification Code area.

8.

Make a payment using the app

With Samsung Pay, you can purchase things without digging through your wallet.

1. When you're ready to pay, open Samsung Pay on your phone.
2. Tap the Pay tab, and select your preferred card. Tap Pay again, and then choose your desired security option, such as entering your PIN or fingerprints.
3. Enter the required security information or simply place your finger on your phone's fingerprint scanner.
4. Next, hold the back of the phone up to the contactless reader and perform your desired actions to complete your purchase.

Note: If a transaction will not register, you can refer to our [transaction guide](#) for help.

Make a payment using a Galaxy watch

Samsung Pay can also be used on your Galaxy watch when you'd like to make quick in-store payments. Just make sure you have the [Samsung Pay feature set up on your watch](#) before you start making in-store purchases.

1. On your watch, press and hold the Back button to launch Samsung Pay.
2. Then, either rotate the bezel or swipe on the screen to locate your desired card.
3. Next, hold your wrist that's wearing the watch near an NFC reader or payment terminal. If you're having trouble, make sure to place the watch one inch or less from the terminal.
